

Partner With Us

Fountain of Life is always looking for partners to join with us to make sure that victims of sexual violence are not ignored or pushed aside. They need compassionate and competent counselors and comforters who can help them go through the process from victim to survivor.

Fountain of Life will always work with all key stakeholders and actors interested in this issue and particularly, we work with the Government of Malawi to ensure that whatever is put in place will be sustainable. There is so much to do at all key entry points like Police Victim Support Units, Medical Centers, Schools, Churches, NGO's and CBO's.

If you are interested in working with us in the same way, please let us know and we will work out a plan together.

"Helping victims of sexual assault rebuild their lives"

GOAL: To provide culturally appropriate care, support and protection to victims of sexual abuse so as to enhance their healing process, build their resilience and empower them so they can once again function with confidence.

VISION: To develop and establish effective solutions and interventions enabling a person who has been sexually abused to go through a holistic healing process with access to all the assistance they need in order to return to full mental, emotional, physical and spiritual health.

“Helping victims of sexual assault re-build their lives”

What we do.....

- We provide trauma counseling (psycho-social first-aid) to victims/survivors of sexual assault.
- Child therapy elements (Play therapy sessions)
- Group support – teens, parents/caregivers, play groups
- Follow up sessions as much as possible

- We provide comfort packs to victims/survivors of sexual abuse
- We rely on volunteer lay trauma counsellors
- We provide our volunteers with airtime and transport assistance
- We give our counsellors annual retreats or breaks
- We provide ongoing training and mentoring for the volunteers
- We carry out awareness campaigns in communities, schools and more...

Where we work....

Fountain of life offices are in Lilongwe, the capital city of Malawi.

We provide trauma counselling services along with Police, Medical services, Social welfare and magistrates at the One Stop Centers in Blantyre at Queen Elizabeth Central Hospital, Lilongwe at Kamuzu Central Hospital, Mzuzu at Mzuzu Central Hospital and Zomba at Zomba Central Hospital. We will be replicating the same services we provide at these services in Mangochi, Mulanje and Nkhata-Bay.

Where we are heading...

Fountain of Life would like to do much more for those so devastated by violent acts they never asked for.

- ⇒ We hope to be involved in more One Stop Centres as they get up and running.
- ⇒ We plan to expand our model to rural contexts with well established partners as most of the people in Malawi live outside of cities.

- ⇒ We plan to find ways to strengthen communities so they have greater capacity to help those seeking help after being raped.
- ⇒ We hope to continue working with the Government to strengthen the referral systems to the OSCs
- ⇒ We will continue to use our “Breaking the Silence” resource to give a voice to those who need it and see lasting change come to people, families, communities, and Malawi.
